**DISCUSSION ITEM**

**WASHINGTON TOWNSHIP INDEPENDENT SCHOOL DISTRICT  
PROPOSED REPORT & EXCEPTIONS THERETO**

Chair Karen Farmer White announced that the Board received the proposed report of the independent presiding officer that the Board engaged to conduct another hearing in the matter of the Washington Township Independent School District (WTISD). She said the report included a proposed order from the presiding officer to deny Washington Township's request for reassignment from the Dover Area School District to the Northern York County School District.

She further noted that the independent hearing examiner's report was provided to all members of the Board for review when it was received at the end of October.

The Chair explained that the parties to this matter were afforded the opportunity to submit exceptions to the report and to raise objections to any exceptions that were filed. Exceptions to the proposed report were filed by WTISD and the Dover Area Education Association (DAEA). The Dover Area School District submitted an objection to the exception filed by WTISD. WTISD submitted an objection to the exception filed by DAEA. The Chair said all objections and exceptions filed in response to the presiding officer's proposed report were provided to all members of the Board for review.

Chair Farmer White called for discussion about the proposed report, the related objections and exceptions, and whether there were any amendments to the proposed report that members wanted to offer based on the arguments presented in those filings. Ms. Farmer White stated that she planned to offer a set of technical amendments to the proposed report that addressed typographical errors in the document.

Kirk Hallett requested that the Board enter into Executive Session to consult with counsel about legal procedures related to the matter under discussion.

### **EXECUTIVE SESSION**

Chair Farmer White called for an Executive Session of the Board for the purpose of consulting with counsel regarding legal procedures regarding the proposed report of the hearing officer and the exceptions and objections filed thereto.

The Board adjourned its Executive Session and the Chair reconvened the 348<sup>th</sup> meeting of the Board.

### **PUBLIC COMMENT**

John Peters, a Washington Township resident, expressed his frustration with the Board and said the Board is removing any hope of local control which is contrary to what the country is supposed to stand for. He said WTISD has met every requirement by law and statute and that less than 1% of the taxable inhabitants oppose moving WTISD. Mr. Peters said WTISD has shown time and again that the only thing it shares with Dover is the school and that infrastructure, EMS, police and fire services, state representative, and municipal judges are located in Northern or Adams County. Mr. Peters said the Board has made a continuing effort to delay, discourage and run up the cost and that we will continue to fight for our freedoms because that is what Americans do. He said an example of the obstacles WTISD faces includes the Board ignoring the court directive of limiting the hearing to the statutes that would be violated if the transfer was approved and placing the burden of proof beyond the preponderance of the evidence.

Holly Feeser, a Washington Township resident and parent affiliated with Keep Us in Dover Schools (KIDS), stated that our children are flourishing in the Dover Area School District with outstanding academics and opportunities for programming in sports, agriculture, music, and

fine arts. Ms. Feeser said the Dover Area School District provides a well-rounded, comprehensive education program. She thanked the Board for its deliberation over the last few years and again today to keep student in their home district where she said parents affiliated with KIDS are committed to volunteer, coach, and serve on the school board. She noted that one Washington Township resident currently serves on Dover’s school board. She thanked the Board for its continued attention to this matter and again requested that students remain in their home district.

Joe Sieber, a Washington Township resident and parent, spoke in support of WTISD’s transfer to the Northern York County School District (NYCSD). He said conclusive evidence was put forth at the hearing that shatters some myths that the Board has heard in the past. Mr. Sieber said Dover’s enrollment is approximately 3,500 students and that WTISD has only 253 students in Dover schools, which is 7% of the district’s population. He said WTISD provides about 3% of Dover’s \$75 million budget. Mr. Sieber said school districts routinely are faced with shortfalls or the failure of state government to provide a budget so they can plan accordingly and that they routinely cut costs and still provide a quality education. He said NYCSD is closer, safer, and better performing. Mr. Sieber said Dover schools are overcrowded and that the transfer will provide some breathing room. He said Dover township is exploding with housing growth and that growth will provide millions on new tax revenue and new students that will make up for the loss of WTISD in the blink of an eye. Mr. Sieber said the Commonwealth Court asked whether both districts will be able to provide a comprehensive education after the transfer and that both districts said yes. He said the Board needs to follow the facts to lead to its decision.
